SUMMARY

Full-stack engineer based in Peshawar, **in production since 2017**. I led e-commerce development for a UAE trading company, built an AI voice agent that answers live sales calls in Abu Dhabi, and automate a US Shopify store from paid order to print-ready draft. Available for freelance projects.

SKILLS

Backend	Python · Django · FastAPI · SQLAlchemy · Alembic · Pydantic · MySQL · JWT · OAuth
Frontend	TypeScript · React 19 · Next.js 15 App Router · Redux.js · Tailwind CSS 4 · Framer Motion
AI & Voice	Groq · Gemini · Deepgram STT · Cartesia · ElevenLabs TTS · Pinecone · Twilio · Redis
DevOps	Google Cloud Run · Docker · Nginx · Gunicorn · CI/CD pipelines · DigitalOcean

EXPERIENCE

Shopify & Automation Engineer
Aug 2026 — Present

VIN Wear · United States · Remote freelance

- Built the order automation behind **VIN Wear**, a Shopify store whose garments each carry a registration number on the sleeve — the number is placed on every order with no manual step
- Python service on the Shopify and Printful APIs: from **paid order to tag on a Printful draft in about 15 seconds**, with signed webhooks and three retries before a human alert
- Live since **17 September 2026** on its own Ubuntu server behind Caddy; eleven step-by-step tests, and a Custom VIN feature currently in progress
- Set up the store's transactional emails, product reviews and star ratings alongside the automation

AI Voice Systems Engineer
2025 — Present

Capital X Car Care · Abu Dhabi, United Arab Emirates

- Built **Sara**, a bilingual English and Gulf Arabic phone agent handling live inbound sales calls on FastAPI
- Designed the conversation pipeline end to end — intent, routing, Pinecone retrieval, generation and persona control
- Reached **95% quality across 255 automated assertions**, with 100% on real-conversation scenarios
- Deployed on Google Cloud Run with Twilio media streaming, Redis session state and streaming STT and TTS

E-Commerce Development Lead
2022 — 2025

Fenzacci Trading L.L.C · United Arab Emirates

- Led full lifecycle development of an e-commerce platform in Django and React
- Architected a scalable backend with payment and inventory integrations
- Optimised performance — **90% faster load times**
- Implemented CI/CD pipelines, **reducing deployment time by 80%**

Full Stack Developer — Remote & Freelance
2019 — 2022

Various clients and agencies · Pakistan / Remote

- Built **15+ web applications** on the Django and React stack
- Integrated payment systems including Stripe and PayPal
- Deployed on AWS and Heroku with **100% uptime**
- Reduced client operational costs by **30%** through automation

Intern / Trainee Developer
2017 — 2019
